TAWARAN RESEARCH PhD

Kami adalah grup research yang bernama P2CF (Pyrolysis, Propulsion, Combustion, and Fire) INSA Centre Val de Loire Bourges Perancis dibawah PRISME labortory region Orléans Centre Val de Loire France membuka peluang research PhD dengan tema :

1. Development bio-based materials and investigate and their thermal characterization (TGA, SEM, EDX) for transportation and electronics application
2. Experimental and numerical studies of the fire behaviour of composites materials impacted by kerosene/air flame.
3. Numerical study and sensitivity analysis of two-phase oil-water flow and heat transfer in different flowline orientations using OpenFOAM
4. Study on fire protection in the military vehicle and heritage building

Our Profesor and team, (lebih lengkap bs di cari di profile google scholar dan author scopus)

1. Prof Khaled Chetehouna
2. Prof Nicolas Gascoin
3. Prof Brady Maseau
4. Dr. Abdelhakim Settar

Cara megirimkan CV and motivation letter, rayon Indonesia bisa dikirimkan ke Email asih.melati@insa-cvl.fr atau soleh.junjunan@insa-cvl.fr.

Selanjutnya kriteria yang memenuhi akan diberikan kepadanya LOA untuk bisa apply pada scholarship Funding di France diantaranya :

1. BIB 5000 doktor – LPDP Indonesia, institusi tujuan beasiswa LN nomor (583)
2. Beasiswa BGF (Bousier Gouvernement Française)
3. Beasiswa Eiffel
4. INRIA, CNRS, Erasmus -Mundus dll
